Milbank Memorial Fund and AcademyHealth
2019 State and Local Health Innovation Award

Please fill in information below and submit when applying online.

Project Title:

Primary Agencies Involved:

Problem statement: Define the specific goal or problem addressed by the Data Analysis Results (DAR):

Data specifications: Describe the categories of data elements, sources, and standards including links to organizations or documents cited:

Interoperability: Describe how the DAR ensures consistency of data outputs across disparate systems:

Samples of data outputs: Describe user-facing outputs or products using the DAR; provide up to 3 examples. When you submit the application web form, you can add samples as appendices to the form.

Support from key stakeholders: Provide a list of key stakeholders and supporting organizations
(1) within the government agency and if applicable

(2) external to the government agency that have used or plan to use the DAR or its resulting outputs and products.

Demonstration of successful testing and implementation in real world setting(s): Describe how DAR was tested and implemented in a state, region or local area; a robust pilot test would be acceptable.
